Permission to prepare the annual accounts and directors' report in English language for Staticus Norway AS, org. nr. 995 706 911

With reference to your letter of 15 December 2015 and e-mail of 26 October 2015, you apply for permission to keep annual accounts and directors' report in English language. The application in question concerns Staticus Norway AS.

Conclusion
Based on a total evaluation, the view of The Directorate of Taxes is that Staticus Norway AS may make the directors' report and annual accounts in English language according to the Norwegian Accounting Act § 3-4 third paragraph. The exemption requires that the information that the decision is based on, does not change significantly.

A copy of this letter must be sent to the Register of Company Accounts in Brønnøysund together with the financial statements. It is incumbent on the company to document by this letter that the permit is granted.

Background
Staticus Norway AS is subsidiary of foreign entity. The Company belongs to an international group, Staticus Group UAB. Single shareholder of the group is Lithuanian, Vytautas Vankevicius who is resident of Lithuania. Members of the board are Lithuanians and are not residents of Norway. Manager of the Company is Lithuanian nationality. All of the employees are Lithuanians. The Company provides construction services in Norway and the clients are Norwegian enterprises. Bids, contracts, financial statements and any other business documentation and communication with clients are in English language. Main suppliers are foreign companies abroad and generate about 94 percent of all company purchases of goods and services. The annual report and financial statements are required to be prepared each year in the Norwegian language only in order to satisfy the requirements of the Norwegian Accounting Act.

Permission to make the annual accounts and the directors' report in Norway in English language
According to the Norwegian Accounting Act § 3-4, third paragraph shall *"the directors' report and annual accounts ... be in Norwegian. The Ministry can in an individual decision decide that the directors' report and/or annual accounts may be in another language".*

Ot. prp. nr. 42 (1997-1998) About Act about annual accounts etc., says the following about the purpose of the Accounting Act, refer section 1.1:

> *"The aim of the Government with respect to the Accounting Act is that it shall contribute towards providing informative accounts for different users of accounts. The users of accounts include investors and creditors which provide capital for the companies. Other groups include those who have an interest in knowing how the companies are operated, for example employees and the local community. The information to the capital market is an important basis for the correct pricing of financial instruments. The correct pricing of stocks is an important factor in securing the best possible allocation of resources in the economy. High quality accounts will also make it more difficult for market participants to obtain speculative gains as a result of non-publicly available information."*

Hence, one of the main aims of the Accounting Act is to contribute to "informative accounts for different users of accounts". The users of the accounts will include investors, creditors, employees and the local community.

Hence, it is the view of the Ministry that it is crucial that the question of dispensation from the general rule that the annual accounts and/or directors' report should be prepared in Norwegian, not in any significant way deviate from the consideration of users of the accounts.

As mentioned above it is particularly the consideration of the users of the account information which has to be taken into consideration when considering the application for permission. In this assessment, the Directorate of Taxes has emphasized that the company is a wholly owned subsidiary of a foreign company. All of the board members and employees are Lithuanians. Further, the main suppliers are foreign companies abroad.

Please state "our reference" (see above) in all written communication with The Norwegian Tax Authorities.

Best regards

To the General Meeting in Staticus Norge AS

INDEPENDENT AUDITOR'S REPORT

Opinion

We have audited the financial statements of Staticus Norge AS (the Company), which comprise the balance sheet as at 31 December 2025, the income statement and statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion

- the financial statements comply with applicable statutory requirements, and
- the financial statements give a true and fair view of the financial position of the Company as at 31 December 2025 and its financial performance and cash flows for the year then ended in accordance with the Norwegian Accounting Act and accounting standards and practices generally accepted in Norway.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the *Auditor's responsibilities for the audit of the financial statements* section of our report. We are independent of the Company in accordance with the requirements of the relevant laws and regulations in Norway and the International Ethics Standards Board for Accountants' *International Code of Ethics for Professional Accountants (including International Independence Standards)* (the IESBA Code), and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other information

The Board of Directors and Chief Executive Officer (management) are responsible for the information in the Board of Directors' report. Our opinion on the financial statements does not cover the information in the Board of Directors' report.

In connection with our audit of the financial statements, our responsibility is to read the information in the Board of Directors' report. The purpose is to consider if there is material inconsistency between the information in the Board of Directors' report and the financial statements or our knowledge obtained in the audit, or otherwise the information in the Board of Directors' report otherwise appears to be materially misstated. We are required to report if there is a material misstatement in the Board of Directors' report. We have nothing to report in this regard.

Based on our knowledge obtained in the audit, it is our opinion that the Board of Directors' report

- is consistent with the financial statements and
- contains the information required by applicable statutory requirements.

Responsibilities of management for the financial statements

Management is responsible for the preparation of financial statements that give a true and fair view in accordance with the Norwegian Accounting Act and accounting standards and practices generally accepted in Norway, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Penneo Dokumentnøkkel: J96L0-T0H4W-7682Z-Y2SB3-Q363L-8JXNH

EY

Shape the future
with confidence

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists.

Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the Board of Directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Notes to the accounts for 2025

Note - 1 Accounting Principles

The financial statements have been prepared in accordance with the Norwegian Accounting Act and generally accepted accounting principles in Norway.

Revenue recognition
Revenues from the sale of goods are recognised in the income statement once delivery has taken place and most of the risk and return has been transferred.

Revenues from the sale of services and long-term manufacturing projects are recognised in the income statement according to the project's level of completion provided the outcome of the transaction can be estimated reliably. The total estimated loss on a contract will be recognised in the income statement during the period when it is identified that a project will generate a loss.

Balance sheet classification
Current assets and short term liabilities consist of receivables and payables due within one year, and items related to the inventory cycle. Other balance sheet items are classified as fixed assets / long term liabilities.

Current assets are valued at the lower of cost and fair value. Short term liabilities are recognized at nominal value.

Fixed assets are valued at cost, less depreciation and impairment losses. Long term liabilities are recognized at nominal value.

Trade and other receivables
Trade receivables and other current receivables are recorded in the balance sheet at nominal value less provisions for doubtful debts. Provisions for doubtful debts are calculated on the basis of individual assessments. In addition, for the remainder of accounts receivables outstanding balances, a general provision is carried out based on expected loss.

Foreign currency translation
Transactions in foreign currency are translated at the rate applicable on the transaction date. Monetary items in a foreign currency are translated into NOK using the exchange rate applicable on the balance sheet date. Non-monetary items that are measured at their historical price expressed in a foreign currency are translated into NOK using the exchange rate applicable on the transaction date. Non-monetary items that are measured at their fair value expressed in a foreign currency are translated at the exchange rate applicable on the balance sheet date. Changes to exchange rates are recognised in the income statement as they occur during the accounting period.

Income tax
The tax expense consists of the tax payable and changes to deferred tax. Deferred tax/tax assets are calculated on all differences between the book value and tax value of assets and liabilities. Deferred tax is calculated as 22 percent of temporary differences and the tax effect of tax losses carrid forward. Deferred tax assets are recorded in the balance sheet when it is more likely than not that the tax assets will be utilized. Taxes payable and deferred taxes are recognised directly in equity to the extent that they relate to equity transactions.

Cash flow statement
The cash flow statement is presented using the indirect method. Cash and cash equivalents includes cash, bank deposits and other short term, highly liquid investments with maturities of three months or less.

Notes to the accounts for 2025

Accounts receivable and other receivables
Accounts receivable and other current receivables are recorded in the balance sheet at nominal value less provisions for doubtful accounts. Provisions for doubtful accounts are based on an individual assessment of the different receivables. For the remaining receivables, a general provision is estimated based on expected loss.

Note 2 - Risk

The company has contracts out in 2024 and 2025 and has incorporated itself in the market with their products. The company relies on hired help to each project so that they are flexible in relation to the demand in the market. Main supplier, who is mother company, delivers to several markets and have contracts beyond 2025.

Note 3 - Sales revenue

Staticus Norge AS is a supplier to major companies in the construction market in Norway and other Nordic countries, based on products developed and manufactured by Staticus UAB in Lithuania.

Note 4 - Long term manufacturing contracts

Projects are registered by the percentage of completion. Profits are registered the work is performed.

	2025
Acc. Project related expense	669 162 895
Acc. Project related income	716 004 297
Margin	46 841 402
Future income ongoing projects	54 097 864

Other receivables is 0. Not invoiced expenses amounts to NOK 54 097 864, which is included in other short-term liabilites.

Note 5 - Trade with related parties

The company sells products that essentially purchased from group company in Lithuania Staticus UAB. This company also provides assembly services through its Norwegian branch Staticus NUF.
Suppliers and installation work of Staticus UAB are made with NOK 85 084 354 ,- in 2025 and
NOK 310 759 228,- in 2024. Additionally, design services are sold from Staticus UAB.

Notes to the accounts for 2025

Note 6 - Wage costs, number of employees, remuneration, loans to employees and auditor's fee

Board of directors' report 2025

Staticus Norge AS
Adress: Ruselokkveien 34, 0251 OSLO
Org.nr: 995706911 MVA
Business: Annen spesialisert bygge- og anleggsvirksomhet

The business

Staticus Norge AS (hereinafter – the Company) core activities include design and installation of aluminum glass façade systems as well as other types of façade structures. The company's head office is located in Oslo.

Financial performance

The Board considers that the annual accounts give an accurate description of Staticus Norge AS's assets and liabilities, financial position and result.

The company consistently follows the latest façade trends and aims to offer new products to the Norwegian market. All the products and services meet the highest quality requirements since the company uses only reliable solutions which comply with the highest safety standards. Therefore, the Company continues to maintain strong business relations with its main customers – Insenti, Hent and Nyr landspitali ohf. In 2025, the Company's total revenue accounted for NOK 177 618 396 and was 44% lower compared to 2024 (NOK 401 842 433). It was a significant increase in 2024 74% but due to finished old project and just started new ones there is decrease in 2025. Net profit for the year accounted for NOK 6 189 005 (2024: 9 959 267). 6 000 000 NOK of profit will be allocated to dividends.

Going concern

In accordance with the sections 4-5 of the Accountancy Act, we confirm that Staticus Norge AS meets the requirements for continuation as going concern. This is based on the fact that the Company has an order book for around NOK 439 million for the period 2026 - 2028. In preparing the consolidated financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concerned and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations or has no realistic alternative but to do so.

Financial outlook

In 2025, our system development efforts focused on advancing unitized solutions that are faster to install, easier to certify, and more material-efficient without compromising performance. As a result, three Design for Manufacture (DfM) variants and two HUF systems have been developed and are now progressing through various stages of deployment. Also, we are developing the data infrastructure within XD+ to enable end-to-end material traceability throughout the project lifecycle, providing reliable component-level data that supports informed circularity decisions based on actual performance and material characteristics rather than assumptions. Within XD+, we are establishing a material passport framework to systematically capture and manage material data across the project lifecycle, providing the foundation for improved traceability, resource efficiency, and data-driven sustainability decisions.
In 2025, Staticus launched the Staticus Façade Service, a specialized offering designed to protect asset value

and ensure façades continue to perform effectively throughout their operational life. The service provides building owners with structured maintenance and inspection programs that help identify potential issues early and maintain long-term façade performance. The service will support not only façades delivered by Staticus but also those installed by other façade system providers.

Insurance

In 2025 Company has core components of insurance coverage, specifically civil insurance for managers. The company maintains comprehensive Directors and Officers insurance and indemnification agreements to protect its managers from potential liabilities, promoting responsible decision-making within the organization.

Working environment

At the end of 2025, the Company employed 1 person. The Company has a good working environment and low sickness absence. Neither injuries nor accidents were recorded during 2025. There was gender equality till 2025, and it will be if more employees will be employed. Based on this any measures were planned or taken to promote equality and prevent discrimination in violation of the new law on gender equality.

The transparence Act

In accordance with the Norwegian Transparency Act Company hereby presents its financial statements together with Board of Directors report for the fiscal year ending 31 December 2025. The Company presents its financial statements to the Register of Company Accounts by 31 July 2026.

Subsequent events

There were no significant subsequent events where the non-disclosure could potentially have a significant impact upon the ability of users of the Company's financial statements to take decisions.
